

## **Discussion: How can these four pillars be supported in Africa?**

*Monday, 6 November 2023 11:30 (1h 30m)*

This discussion includes the “clinic”, where one (or more) of the participants will be invited to describe their project, raising any issue they would particularly like to focus on. They will have been primed to do this in the pre-workshop activities. We will try to ensure that this is relevant to the general topic of Workshop Day 1.

The whole group will consider the issues raised and offer suggestions. This will be a discussion led by the workshop facilitators but with the encouragement of contribution from all participants.

**Presenters:** OAIYA, Omo (WACREN); WALK, Paul (Antleaf)
