The FutureGateway framework - warm up

Monday, 21 November 2016 14:00 (1h 30m)

In this hands-on section participants will be provided with examples of how to use FutureGateway APIs to submit and monitor jobs as well as to retrieve their output upon completion. REST calls will be done using the curl command, the postman tool and some PHP code.

Presenters: BECKER, Bruce (CSIR - South Africa); TORRISI, Mario (University of Catania - Italy)
